Amazing for relaxation.. Do you often dream of space?

Do you enjoy jigsaw puzzles?

How about relaxing music?

Yes? Then I guess you have your answer.

7/10. Very relaxing game.

I like puzzles therefore I bought this game and everything else from Pixel Puzzles - no regrets.. This is a decent game. I would put it about middle of the road for the Pixel Puzzles series, but that's more my bias for the subject matter of the others. The puzzles in this game deal with space themes, so the planets, stars, and spaceships. You have an astronaut walking around as you solve the puzzles, and to rescue him (which unlocks an achievement for each puzzle) you have to grab small rocket fragments floating near the puzzle pieces and build the rocket... not too problematic.

The puzzles in this volume unlock automatically in the Ultimate game upon purchase.. I was [having sex] with this girl... and it was pretty wild; I explained to her that I'd not had it in 2 years because I'd been in the VD clinic.. she replied 'How's the food? ... I'm going in tomorrow!'. Game has an annoying astronaut bouncing about getting in your way... you can grab said astronaut and drop him from top of screen, catching him just before he hits ground, and keep doing this.. keeping the astronaut in a constant flux of falling.

That is, until you miss him and his helmet shatters killing him off.

10V10 would kill astronaut again. Really nice, beautiful pictures, relaxing game ;). **TL;DR**Review: Definitely the bad apple in the Pixel Puzzle bunch.

Bugs: Crashes on exit; No save date lost. Puzzle alignment is off.

Achievements: 100% completion possible by solving all puzzles without using any power-ups (and using them to launch the rockets instead).

Final Verdict: **3/10**

The designs are a bit uninspired, the NASA logos are blurred out, and the jigsaw alignment is slightly off to the topright which can cause some annoyances when trying to place side and corner pieces. The difficulty is easy for all puzzles but takes a steep jump up at the final puzzle.. doing reviews cuz i can

If you want death to come and visit you, then this game is right for you.. Well it's a puzzle.

-----=(QUICK INFO)=-----

- ★★★★★ I had massive fun playing the game, it felt great in every aspect of the game.
- ★★★★★ Good game, it did many things right, you should play it.
- ★★★ OK game, not the best but not bad at all, you can skip it if you have better games.
- ★★ Bad game, you shouldn't play it.
- ★ Garbage, don't waste your time.. Prositives:
 - The main menu was a puzzle & not some tedious task such as killing zombies.
 - The side of the board game took little to no time extra to complete & was not intrusive.
 - In my opinion the most impressive pictures so far of the series.
 - Your options save & don't reset every time you load up the game like in previous titles.
 - You get to play a puzzle with zero mess & effort.

Negatives:

- There was no button installed that let me deliver a pizza to my house, like in WOW.
- When I yelled "That's one small step for a man" into the mic the game did not respond with "One giant leap for mankind"
- Life is short & death is inevitable.

Hope you enjoyed the review & have a nice day!. Brilliant as always I love the puzzles very relaxing .. japan and space are my favorites to just relax , very well put together good job... good way to waste your time.. This pixel puzzles has actually the most relaxing music to puzzle on
